

Performance Drug List – Standard Opt Out for CareFirst Formulary 1

The **Performance Drug List – Standard Opt Out for CareFirst Formulary 1** is a guide to help you identify products that are both clinically appropriate and cost-effective. These drugs are selected for their quality, effectiveness and cost based on current medical research and input from a committee of doctors and pharmacies who serve the CareFirst region. Generics listed in therapeutic categories are for representational purposes only. This list represents brand products in CAPS, branded generics in upper- and lowercase *Italics*, and generic products in lowercase *italics*.

PLAN MEMBER

Ask your doctor to consider prescribing, when appropriate, a preferred drug from this list. Take this list the along when you or a covered family member sees a doctor.

- Our Pharmacy Benefit Manager, CVS Caremark®, may contact your doctor after receiving your prescription to request consideration of a generic equivalent or preferred brand drug, which may lower your out of pocket costs.
- Your specific prescription benefit plan design may not cover certain medications, products or categories, regardless of their appearance in this document.
- Your prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- You may be responsible for the full cost of medications and products that are removed from coverage.
- To learn more about your specific drug benefit, log into *My Account* at www.carefirst.com/myaccount and click on Drug & Pharmacy Resources under Quick Links or call CareFirst Pharmacy Services at 800-241-3371.
- When a generic medication that is equivalent to a brand-name drug is released to the market, in most instances, that brand-name drug will be designated as a non-preferred option.

HEALTH CARE PROVIDER

Your patient is covered under a prescription benefit plan administered by CVS Caremark. As a way to help manage health care costs, authorize generic substitution whenever possible. If you believe a brand-name product is medically necessary, consider prescribing a brand name on this list.

- The member's prescription benefit plan design may alter coverage of certain products or vary cost sharing amounts based on the condition being treated.
- This drug list represents a summary of prescription coverage. The member's specific prescription benefit plan design may not cover certain products or categories, regardless of their appearance in this document.

- The member's prescription benefit plan may have different cost sharing for specific products on the list.
- Unless specifically indicated, drug list products will include all dosage forms.
- Log in to [Caremark.com](https://www.caremark.com) to check coverage and cost sharing information for a specific medicine.
