

Adjunctive General Services

Unclassified Treatment

Fixed partial denture sectioning

- Sectioning of one or more connections between pontics and/or bridge retainers;
- Some portion of the fixed prosthesis must remain intact and serviceable following sectioning;
- Usually extraction of an abutment tooth is involved;
- Includes recontouring and polishing of the retained portions;
- Teeth must be in functional occlusion;
- Abutment teeth must have adequate bone support.

Family of health care plans
